

iOS app tipawayy

A tip application where individuals who are able to be tipped in a form of a compensation(\$USD) amount by a party(tippers) who he/she has sought to tip an individual(s) who has given some type of service to the tipper giving them an opportunity to receive a compensation. All applicants using TIPAWAY will go through the process of creating an account with user info(about, location- around me -local/mutual, requests for tipper, tip me,I individual services(people who within radius/or mutual friend/following want to show what tipable service they can provide. Also in all users profile, in he/she profile they will have the amount of tips they have received/given and the different services he/she can offer to do/or looking for and will lead to a separate feature of the tipawayy app which is a categorized area based explore tab. They will have in profile their ratings from previous tippers and will leave reviews. Under the individuals profile they will have a link of thinks they offer to do as a service which will lead to the applications other feature, a search tippers being able to search within miles radius of people offering a service. Whether you would like to tip the nice gentlemen who double bagged your groceries, to offer a young kid 2 streets down to mow your lawn for \$20 or to commute with mutual (friend of a friend)to a long trip to work and carpooling on gas! Verification through reviews and ratings/video/camera (verification type) This can provide a variety of opportunities of what this application can do. Taking Venmo/cashapp, even beating Uber/Lyft, and of course to applications like facebookMarketplace/ Craigs/and even indeed! Think about the endless opportunity this application can provide, and how competitive it becomes to other varieties of business.
